INTRODUCTION

shri raam janmabhoomi ayodhya

Recently, on 22nd January, we celebrated a monumental event - the construction of the Shri Ram Mandir in Ayodhya.

"After a century-long endeavor, the dream of building the Shri Ram Mandir finally became a reality."

As the name suggests, the temple is dedicated to Lord Shri Rama and is believed to have been built at Ram Janmabhoomi (the birthplace of Lord Shri Rama).

FUNCTIONALITY

Navigation Bar

- The navigation bar allows users to easily navigate between different sections of the website using anchor links.
- It includes links to sections like Home, Temple, Lord Ram, Our Souvenir, and Tourism.

Home Section:

- The home section features a full-screen video background showcasing the essence of the event.
- It provides a brief introduction to the Shri Ram Mandir and its significance as the birthplace of Lord Ram.
- Includes a carousel displaying images related to the temple and its surroundings.

Progress Bar:

- A progress bar indicates the completion status of the temple construction.
- Provides textual information about the progress made in the construction process

Lord Ram Section:

Displays cards featuring images related to different chapters (kands) from the Ramayana, such as Bal Kand, Ayodhya Kand, Aranya Kand, etc.

FUNCTIONALITY

Our Souvenir Section:

- Showcases a carousel of videos highlighting different aspects of the Shri Ram Mandir, including its history, souvenirs, and festivities.
- Each video card includes a title, description, and a link to explore more details.

Tourism Section:

- Provides information about tourism options and transportation to Ayodhya.
- Includes details about travel by air, train, and road, along with nearby airports and railway stations.
- Features a Google Maps embed to visualize the location of Ayodhya.

Footer :

- The footer contains social media links for easy access to the website's social profiles.
- It includes copyright information and credits for the website's development.

STRONG POINTS

Clear Navigation

Informative Content

Engaging Visuals

Multimedia Integration:

Accessibility

Overall, the code effectively combines informative content, engaging visuals, and interactive elements to create a compelling and user-friendly website experience for visitors interested in learning about and exploring the Shri Ram Ayodhya event.

INTEGRATION

Live Construction Updates

Virtual Tours

User Feedback

Multilingual Support

Social Media Integration

Enhanced Accessibility Features

implementing additional accessibility features such as keyboard navigation, screen reader compatibility, and text resizing options would ensure that the website is inclusive and accessible to users with disabilities. Prioritizing accessibility enhancements can help improve user experience for all visitors.

THANK YOU
